

Nebraska Driver's Practice Exam

The questions in the practice exam are different than those asked on the actual test. This practice exam should be used as an educational tool in conjunction with the Nebraska Driver's Manual, not as an alternative to studying the manual. Each question has only one correct answer*. The number in parentheses at the end of each question indicates the page number in the driver's manual where the correct answer can be found. You may also find the DMV Interactive Written Exam on our Web site at www.dmv.state.ne.us.
